4 READING

a Read the text and number the pictures in the correct order.

Life on the International Space Station

Some people dream of traveling into space. However, life in space is not very easy. Here are some of the problems that people on the International Space Station (ISS) have.

1 Having lunch on the ISS is very difficult because there is no gravity in space, and things never stay where you put them. Food comes in plastic containers because the food can’t stay on a plate.

2 When they go outside, people wear special clothes, because there is no atmosphere in space. It is also very cold in space. Inside the ISS, people can wear ordinary clothes.

3 You can’t take a shower in space because the water doesn’t stay in one place. People wash with a sponge with water and soap.

4 People on the ISS can’t sleep in normal beds because their bodies don’t stay in the beds. They use special sleeping bags on the wall.

If you want to take a vacation in space, remember that life there is very different from life at home. And if you don’t like it, you can’t take a train or bus home!

b Read the text again. Mark the sentences T (True) or F (False).
1 You can eat vegetables on a plate. F
2 You can eat pasta from a plastic container. T
3 You can wear jeans inside the ISS. T
4 You can take a shower. T
5 You can wash with a sponge. T
6 You can sleep in a normal bed. T
7 You can’t go home by train. T

a Barry's on vacation in New York. Read his e-mail and complete it with had, get, was, were, or went.

Dear Mom and Dad,

This is a great vacation. Every day we do something different. We 1 had a fantastic day yesterday! We 2 get up early (at 7:00), and we 3 get to Manhattan. It 4 was great! We 5 had breakfast, and then we took pictures at the top of the Empire State Building.

Then we 6 got to Wall Street. At lunchtime, we 7 had a picnic in Central Park. In the afternoon, we 8 got to the Museum of Modern Art. The Van Gogh paintings 9 were beautiful. After that, we 10 got to Chinatown. We 11 had dinner at a restaurant there, and the food 12 was really good. After dinner, we 13 got back to the hotel in a yellow taxi. We 14 were very tired!

Hope you're both well. See you next Friday!

Lots of love,
Barry

Coldplay

Coldplay is from Britain. The singer is Chris Martin, Jonny Buckland plays the guitar, Guy Berryman plays the bass guitar, and Will Champion plays the drums.

The band started in 1996 when Chris Martin met Jonny Buckland at a university in London. At first their name was Pectorals, then Starfish, but they changed it to Coldplay in 1997. They became famous in June 2000 with the song "Yellow," and their first album, Parachutes, won a Grammy for Best Alternative Music Album in 2002.

a Read the text and mark the sentences T (True) or F (False).
1 Will Champion plays the guitar.  F
2 Chris met Jonny at a university. __
3 They changed their name in 1996. __
4 Their first album wasn't popular. __
5 They made their second album in 2002. __
6 Viva la Vida isn't the same as the other albums. __
7 Coldplay doesn't sell a lot of albums. __

b Look at the highlighted words. What do you think they mean? Check with your dictionary.
Their second album was *A Rush of Blood to the Head* which came out in August 2002. This album also won a Grammy, and the song “Clocks” was Record of the Year in 2004. They made a third album, *X & Y*, in 2005 and a fourth album, *Viva la Vida*, in 2008. *Viva la Vida* is a little different from the first three albums because it has a more Hispanic style.

Coldplay has sold more than 32.5 million albums. They are famous all over the world and you can hear their songs on the radio almost every day.

The Future of the World's Weather

Nobody can be sure what the weather is going to be like in the future, but many people think there are going to be some changes.

Scientists say that in many places it's going to be hotter, and it's going to rain less. Countries in Africa and Asia are going to become very dry all year, and it's going to be impossible for people to find food and water. In Southern Europe and the United States, it's going to be more difficult for plants to grow. People there are also going to have problems finding food in the future.

Nobody knows exactly how much the temperature is going to go up, but scientists say that the change is going to be at least 2°C (3.6°F). They predict that the ice in the Arctic and the Antarctic is going to melt in the next hundred years and a lot of the animals there are going to die. There is also going to be more water in the oceans, so cities on the coast are going to disappear.

Another problem is that the weather is going to become more extreme. Scientists say that there are going to be more hurricanes and typhoons in the future. These storms are going to happen all over the world, and many people are going to lose their homes.
