The Guitarist's Progress

This is a unique and exciting resource for guitarists. Four concurrent series follow the same basic progression, making it easy for them to be used in tandem. Indeed the Duet and Ensemble series is designed to complement the Solo series, as do the Repertoire and Young Guitarist's Progress series. Travelling in Style can be used alongside any of these. Each individual book can be used in conjunction with any guitar books. However, used collectively, they provide one of the most comprehensive introductions available to guitarists today.

FOREWORD

Ten top songs and themes from film and TV arranged for guitar solo by David Burden. They range in standard from about Grade 3 to Grade 5.

This book and the series of which it is part give the student popular hits of contemporary music and pieces from other periods that have been used in film, TV and stage. They can be used to complement the 'Guitarist's Progress' teaching series or any other teaching books.

While studying at the Royal Academy of Music David Burden won the Julian Bream Guitar Prize. In addition to his many books for publishers such as EMI and OUP his 'Guitarist's Progress' series is the backbone of the Garden Music catalogue. He has also edited Chester Music's 'Making the Grade' series for guitar.

Every effort has been made to trace and acknowledge copyright owners. If any right has been omitted, the publishers offer their apologies and will rectify this in subsequent editions following notification.
