What types of exercise are there?

There are five different types of exercise in this book:

1. **Sounds and sound symbols** The sounds exercises help you to practise the sounds we use in English. Some sounds exercises are very useful for speakers of specific languages. (See the table opposite.)

2. **Sounds and sound symbols exercises** Sound symbols exercises teach English sound symbols (phonemic symbols). The connection between English spelling and pronunciation is a problem for speakers of all languages. Knowing English phonemic symbols helps you to learn the pronunciation of new words easily.

As you learn the symbols, you write example words in the chart on page 55. This helps you to remember the phonemic symbols correctly.

3. **Connected speech** These exercises help you to pronounce words in phrases and sentences correctly.

4. **Intonation and sentence stress** These exercises help you to hear and practise different kinds of intonation and sentence stress patterns.

5. **Word focus** In these exercises you study groups of words where there are problems with sounds and word stress.

What about the recording?

This book comes with one tape or CD. The symbol in the exercise shows exactly which part of the recording you listen to.

What about the key?

The answers to exercises, and tapescripts which are not in full in the exercises themselves, are in the key at the back of the book.

As in the *New Headway Student's Book*, sometimes we ask you questions to help you work out rules for yourself. The answers to these questions are in the key, too.

This symbol after an exercise means look at the key. The page number with the symbol shows you exactly where to look.

What about technical words?

Here is a list of technical words we use in this book. Use a bilingual dictionary to translate them. You can look back at this list while you use the book.

- consonant
- contraction
- formal
- impolite
- informal
- intonation
- linking
- phonemic

Sound symbols

Consonant symbols 1

• These words contain the letter c, but the pronunciation of the letter is different in each word.

T1.1 Listen.

-communicate
-faces
-ancient

• These words all contain the same sound, but the spelling of the sound is different in each word.

T1.2 Listen.

-communicate
-technology
-speaking

• Looking at the spelling of English words does not always help you to pronounce them correctly. This is why sound symbols, or 'phonetic symbols', are important. If you write a word in sound symbols, you write what you hear. /k/, for example, is the sound in communicate, technology, and speaking. If you can read sound symbols, you can look up the pronunciation of words in a dictionary.

In this book, you will learn all the English phonetic symbols. In this unit you will learn most of the symbols for consonant sounds.

1 Write these words on the sound symbol lines below, according to the sound of the underlined letters.

Correct the sound symbols that don’t match.
When we speak quickly, a word that begins with a vowel sound is linked to the consonant sound at the end of the word before it:

- Greek_alphabet modern_email

- Linking also happens if a consonant is usually silent at the end of a word:

  /w/   /t/
new_idea computer_information

- The letter y links to the following vowel sound as a /j/:

  /j/
14th-century_English

3 TL8 Listen and practise saying these three phrases, paying attention to the linking.

4 TL9 Listen and then practise saying all the five phrases in the same way, starting from the end.

5 Mark the links in these phrases.

  a message_in_a bottle

  a lot of information
  How is it possible?
  quickly and easily
  words on a page

6 Listen again and practise saying the phrases, paying attention to the linking.

Intonation and sentence stress

Intonation in Wh- and Yes/No questions

- There are two basic kinds of question.
- Wh- questions contain a question word (Who, What, Where, Why, How, etc.). These questions ask for information answers.
- Yes/No questions do not contain question words. These questions ask for Yes or No answers.

1. Look at the questions below. Mark the Wh- questions with a star (*).
   1. Where do you live, ____________ ?
   2. When’s your birthday, ____________ ?
   3. Do you have a job, ____________ ?
   4. What sort of music do you like, ____________ ?
   5. Have you got any brothers or sisters, ____________ ?
   6. Can you speak three languages, ____________ ?
   7. How do you come to school, ____________ ?
   8. Do you like dancing, ____________ ?

2. Listen to the recording and mark these statements True or False. (The names at the end of the questions will help you to hear the intonation more clearly.)

   1. The voice goes up at the end of Wh- questions.
    ____________
    ____________

   2. The voice goes up at the end of Yes/No questions.
   ____________

3. Listen again and repeat the questions and the names. (Use your memory. Don’t write the names in the gaps in 1.)

   Make sure your intonation goes clearly up or down on the name, according to whether you are asking a Yes/No or a Wh- question.

4. Now complete each question in 1 with the name of a student in your class. (Put a different name in each question.)

   Listen again and repeat the questions. Say the names you have written instead of the names on the recording. If there are questions you don’t like, cross them out and write your own questions. Practise saying them with the correct intonation.

5. Stand up and walk round the classroom. Ask each classmate the question you have prepared for him/her. Write down the answers you get.

   When you finish, tell your teacher about your classmates.
Sounds

The sounds /s/, /z/, and /iz/

1. Read the passage about Irene Redmond. Which adjectives do you think describe her life?

<table>
<thead>
<tr>
<th>sad</th>
<th>lonely</th>
<th>easy</th>
<th>boring</th>
<th>busy</th>
</tr>
</thead>
</table>

Irene Redmond and her husband Ken live in Hamilton Gate in Queensland, Australia. They have three children.

In the summer, when it’s hot, Irene gets up at six o’clock and tries to do all the housework by eight. Ken makes breakfast. He’s a good cook.

At eight o’clock Ken’s boss calls him on the radio. After Ken goes to work, Irene does the rest of the housework. Most days Irene washes the clothes.

At ten o’clock Irene puts the baby to bed and teaches her eldest daughter. Usually she manages to do two hours of classes a day with her. They eat at twelve. Irene always bakes her own bread and cakes. She doesn’t go shopping, but orders food on the Internet. In the afternoon she spends time with the children.

The nearest town is Tibooburra. It’s 100 miles away. Irene isn’t lonely, but she misses her family. Sometimes she drives into Tibooburra to see a friend. The nearest neighbour lives 35 miles away. She invites him to tea every week.

In the evening Irene surfs the Internet, reads or plays cards with Ken. Usually Ken loses. They don’t have a TV.

Irene likes living in Hamilton Gate. Ken loves it and hopes to stay there for the rest of his life, but Irene isn’t sure.

2. Work on your own. Read the passage again and underline all the verbs in the third person singular of the Present Simple except is, doesn’t, and isn’t.

3. Work with a partner. Put the verbs you underlined into three groups, according to the pronunciation of the third person ending.

<table>
<thead>
<tr>
<th>Group 1 /s/</th>
<th>Group 2 /z/</th>
<th>Group 3 /iz/</th>
</tr>
</thead>
<tbody>
<tr>
<td>gets</td>
<td>tries</td>
<td>washes</td>
</tr>
</tbody>
</table>

4. Listen and check your answers.

5. Listen again and repeat the verbs, paying attention to the pronunciation of the ending.

6. Circle the correct pronunciation to complete the rules.

1. You pronounce the ending /s/ /z/ /iz/ if the verb ends in one of the following sounds:
   /s/ Example miss / tʃ / Example watch
   /z/ Example lose / dʒ / Example manage
   /ʃ/ Example wash

2. If the verb ends in any other voiceless consonant sound, you pronounce the ending /s/ /z/ /iz/. Example makes

3. If the verb ends in any other voiced consonant sound or a vowel sound, you pronounce the ending /s/ /z/ /iz/. Example makes

6. Work with a partner. How much of the passage can you remember? Use the verb lists from 3 to make sentences about Irene’s life.

Pay attention to the pronunciation of the verb endings.

Strong and weak forms of auxiliary verbs

1 Read the text about Janet Stobbs and her husband Eduardo Revuelta.

Janet and Eduardo Revuelta-Stobbs live near Alicante in Spain. They were married in Alicante. Eduardo’s a doctor and Janet’s an English teacher. Janet was born in England, but she can speak good Spanish. They share the housework. Eduardo likes cooking. They’ve got two children – Arturo and Pablo.

2 Answer these questions. Use short answers.

1 Does Janet live in Spain?  ____Yes, she does____.
2 Has she got a job? ________________
3 Was she born in England? ________________
4 Can she speak Spanish? ________________
5 Were they married in Spain? ________________
6 Do they share the housework? ________________
7 Have they got any children? ________________

4 12.5 Listen to the questions and answers in 2. Underline the weak forms like this ~~~~ and the strong forms like this _______.

5 12.6 Listen. If you hear the weak form of the auxiliary, write W. If you hear the strong form, write S.

1 Was your plane late?  W
   It was very late.  W
2 Have you got a new coat?  
   Yes, I have.  
3 Does your girlfriend work with you?  
   Yes, she does.  
4 Were they married in Mexico?  
   No, they were married in New York.  
5 Has your father got grey hair?  
   Yes, he has.  
6 Do you go jogging every day?  
   Yes, I do.  
7 How many languages can you speak?  
   1 I can speak two – English and Chinese.  

Look at the rule and check your answers.

We use the weak form when the auxiliary verb is at the beginning or in the middle of a sentence, and when it is not stressed. We use the strong form when the auxiliary verb is at the end of a sentence, or stressed.

6 Work with a partner. Practise the dialogues with the recording.

7 In groups, prepare seven questions to interview your teacher. Use each auxiliary verb once.

Example
Have you got a car?
Has your car got a CD player?

Interview your teacher. Listen to the other groups. Don’t ask the same questions!

**Pronunciation of -ed past tenses**

1 **T3.1** Listen to the beginnings of three stories. Notice the way the -ed verb endings are pronounced.
   1 Last night Bert stopped at the supermarket on his way home.
   2 Yesterday afternoon Fred called a restaurant to book a table for two.
   3 Yesterday evening David invited Amanda to dinner.

2 **T3.2** The rest of the stories are mixed up. Listen as you read, and sort the sentences into columns, according to the pronunciation of the -ed verb endings.
   4 He arranged a meeting with his daughter there.
   5 He cooked a big supper for his wife and children.
   6 He decided to cook her favourite meal.
   7 He washed up after supper.
   8 They ordered a lot of the most expensive things on the menu.
   9 They watched a good film on TV after the meal.
   10 They enjoyed it a lot.
   11 The food was wasted because she didn’t come.
   12 They arrived home after midnight.

Here are the rules for the pronunciation of the -ed endings:

- If the verb ends in the sound /t/ or /d/, we pronounce the -ed ending /ɪd/. Example *invited* /ɪnˈvɪtɪd/.
- If the verb ends in a **voiced consonant sound** apart from /d/ (/b/, /d/, /v/, /z/, /ð/, /ʒ/, /dʒ/, /l/, /m/, /n/, /n/), or a vowel, we pronounce the -ed ending /d/. Example *called* /kɔːld/.
- If the verb ends in a **voiceless consonant sound** apart from /t/ (/p/, /k/, /f/, /s/, /θ/, /ʃ/ or /tʃ/), we pronounce the -ed ending /t/. Example *stopped* /stɒpt/.

3 Check the meaning and pronunciation of these verbs in a dictionary.

Sometimes it is difficult to hear the difference between the /t/ and /d/ endings. When the verb is linked to the next word because that word starts with a vowel sound, the endings are much clearer.

5 T3.4 Listen to the linking.

T3.5 Listen and mark the links in these sentences.

2 Would you like anything to drink?
3 He won't talk to his mother.
4 It's in the west of Hungary.
5 You need to buy a new wheel.
6 It's the worst film I've ever seen.

To make the sound /w/, first practise /u:/, push your lips out, and make them round and hard. /w/ is a short sound.

If saying /w/ at the beginning of words is difficult for you, put a word that ends with a rounded vowel or diphthong sound (two, saw, no, now) in front of the /w/ word.

3 Listen and practise.

two
I found two wallets.

4 Say these sentences in the same way. Start with the word before the /w/ word each time.

1 They saw wild koalas in the trees.
2 There's no wine in the shop.
3 Now wait a minute!
4 She bought him a new watch.

5 Match the questions with the answers.

Sentence stress

Rhythm and /ə/

Some syllables are 'heavier' than others in the following poem. We stress them because they are in important words.

Listen and mark the stresses ●. The first verse and the last verse are done for you.

FUTURE INTENTIONS

In June this year I'll finish school,

And the summer's getting near.

My classmates all know what they want to do,

But I haven't got any idea.

Pippa's going to travel round the world.

Hannah's going to stay at home.

Peter's going to join a punk rock band,

And Richard's going to teach in Rome.

Amanda's going to move to Hollywood

Where she hopes to become a star.

Frank's going to pass his driving test,

And then he's going to buy himself a car.

Paula's going to study up at Cambridge,

And Roger's going to learn how to cook.

Emma's going to have a lot of babies,

And Sarah's going to write a book.

Steven's going to be a scientist

And try to help the human race.

Helen's going to be in the Olympic team,

And finish in the long jump in first place.

Ian's going to be a millionaire,

And Anna's going to help the poor.

But I still don't know what I want to do,

So I'll sit here and I'll think some more.
2 How many syllables (stressed and unstressed) are there in the eight lines below? (going counts as one syllable in fast speech.)

line 3 My classmates all know what they want to do

line 6 Hannah’s going to stay at home

line 7 Peter’s going to join a punk rock band

line 8 And Richard’s going to teach in Rome

line 11 Frank’s going to pass his driving test

line 12 And then he’s going to buy himself a car

line 14 And Roger’s going to learn how to cook

line 19 Helen’s going to be in the Olympic team

Now listen again and repeat each line above. Follow the stress pattern you hear on the recording.

5 Work in groups of four. Choose an odd numbered line, as follows:
Student A – line 3       Student C – line 11
Student B – line 7       Student D – line 19

You’re going to have a speaking race. Say your line together with the other students in your group. All start at the same time and all speak as fast as you can.

Who was the winner? Did any of you finish at the same time?

Now do the same with an even numbered line, as follows:
Student A – line 6       Student C – line 12
Student B – line 8       Student D – line 14

6 Listen to the first verse of the poem with rhythm clicks. As you listen, clap with the recording.

Listen to the whole poem again. Clap the rhythm as you read aloud with the recording.

Hearing the difference between polite and impolite offers

1 Read the dialogues. The offers are underlined.

Excuse me, can you tell me where platform six is?
Come with me. I'll show you.

Excuse me, could you tell me where the cat food is, please?
Come with me. I'll show you.

Driver The red light's on and it's making a terrible noise. Can you do something about it quickly?
Mechanic OK. I'll have a look at the engine for you.

3 T5.10 Listen and mark the offers Polite (P) or Impolite (I) in the box on the left in 2.

- To sound polite in English, it is important to change the 'music' of your voice.
- To make a polite offer your intonation should go up on the stressed word, fall, then go up a little at the end. The higher up you go at the start, the more polite you sound.

I'll show it to you.

4 T5.12 Listen and practise.
I'll buy it for you.
I'll clean them for you.
I'll carry it for you.
I'll get some for you.

5 Complete each dialogue with an offer from 4.

1 A Oh dear. I forgot to buy any eggs.
B ______________________

2 A This suitcase is so heavy, I can't possibly carry it up those stairs.
B ______________________

3 A I can't serve drinks in these dirty glasses.
B ______________________

4 A I'm not having lunch today because I left my purse at home.
B ______________________

6 T5.13 Now practise making the offers politely.

Oh dear. I forgot to buy any eggs.
You hear ______________________
I'll get some for you.
You say ______________________

I'll get some for you.
You hear ______________________

2 It says ‘Pull’ /ˈpʊl/ on that door.
3 Look / Luke, will you be quiet?
4 Don’t leave that soot / sʊt/ there!

T8.7 Listen and mark the /ʊ/, /uː/, and /juː/ sounds as follows:

Showing interest and surprise

T9.5 When someone tells you something interesting, you can show your interest by asking a short ‘reply’ question, like this:

My uncle’s a fortune teller. Is he?

T9.6 If your voice is flat you will sound uninterested.

My uncle’s a fortune teller. Is he?

T9.7 If you want to sound really interested, your voice should start low and finish high. Practise, first exaggerating, like this:

Is he? Is he? Is he?

1 Look at the rules for making reply questions.

Rules

• When the verb be is in the sentence, use the correct form of be in the reply question.

My uncle’s a fortune teller.

Is he?

• When another auxiliary verb is in the sentence, use the correct form of that verb in the reply question.

He’s got a gypsy caravan.

Has he?

• When there is no auxiliary verb in the sentence, use the correct form of do.

He likes looking into the future.

Does he?

5 Listen again and repeat the sentences. Make sure you put the stress in the correct places, and don’t forget the contracted forms.

1 Complete this conversation with reply questions.
   My aunt’s a fortune teller.

   1? 
   Yeah, she uses a crystal ball to see into the future.

   2? 
   Mmm. It belonged to my granny.

   3? 
   Yeah. She can read the lines on your hand as well.

   4? 
   And she’s also got some very old Tarot cards.

   5? 
   Yeah, one pack is over 100 years old.

   6? 
   Mmm. And she’s recently bought a horoscope programme for her computer.

   7? 
   Oh, yes. There’s a computer in her caravan, you see.

   8? 
   Mmm. And now I’m interested in fortune telling.

   9? 
   What’s more I’ve started reading lots of books about it.

   10? 
   Yes. And sometimes my friends ask me to tell their fortunes.

   11? 
   Naturally I always say yes.

   12? 

T9.8 Listen and check your answers.  

3 Listen again and repeat the reply questions with the recording. Sound interested.

4 Work on your own. Write down some surprising ‘facts’ about a relative of yours. (You don’t have to be truthful!)

Example
   My wife’s a film star.
   She’s got a house in Beverly Hills.
   I’m her sixth husband.

T9.9 Listen to the short dialogue below. Can you hear that B’s voice starts very low and goes up very high at the end of each question?

A My wife’s a film star.
B Is she?
A Yes. She’s got a house in Beverly Hills.
B Has she?
A Yes. Of course, I’m her sixth husband.
B Are you?

6 Now work with a partner to make similar dialogues.

Student A Tell your partner what you have written down.

Student B Show your surprise, using reply questions. Pay attention to your intonation.

When you finish, swap roles.

4 a __________ holding a __________.
5 a __________ drinking a __________.
6 a __________ saying ‘__________!’
7 Mr __________ asking the __________.
8 Mrs __________ on a __________.

T10.1 Listen and check your answers.

2 Listen again and memorize the phrases. Each phrase practises a diphthong symbol. (Can you find the symbols in the pictures?)
Listen to these sound symbols and example words. Memorize the sound of each diphthong.

/ɛi/ + /i/ = /ei/ day,

/ʌi/ + /i/ = /ai/ my,

/ʌi/ + /i/ = /ɔi/ boy,

/ɪ/ + /ɒ/ = /tʌ/ near,

/ɛi/ + /æ/ = /eə/ where,

/ɜ/ + /i/ = /əʊ/ go,

/æi/ + /ɔ/ = /əʊ/ now,

/ɜ/ + /ə/ = /uə/ tour*

* Many younger native speakers rarely use this sound. They often use /ə/ instead.

Listen to these words. Write them next to the diphthong symbols above, according to the sounds of the underlined letters.

For some time Nancy looked (1) **at** the handsome young man sitting opposite her.

Finally he smiled (2) **to** her and said 'Hello'.

It was a long trip and they talked (3) **for** lots of things. He came (4) **in** Toulouse, and he was interested (5) **with** photography.

When he got (6) **on** the train in Toulouse, Nancy saw a book on the seat. She didn’t know if it belonged (7) **for** the handsome Frenchman, but she decided to write (8) **for** the address in the front of the book.

Listen and check your answers.

* Some prepositions have weak forms when they are not at the end of a sentence. In the text above, these prepositions are weak:

<table>
<thead>
<tr>
<th>Strong</th>
<th>Weak</th>
</tr>
</thead>
<tbody>
<tr>
<td>to</td>
<td>/tu:/</td>
</tr>
<tr>
<td>at</td>
<td>/æt/</td>
</tr>
<tr>
<td>from</td>
<td>/frɒm/</td>
</tr>
</tbody>
</table>

* Some prepositions – like off /ɒf/, about /əˈbaʊt/, and in /ɪn/ – only have a strong form.

Many verbs are used with a preposition (eg listen to, look at). The preposition follows the verb, and so in questions it is at the end.

Example
She **looked** at the man opposite her.
Who did she **look** **at**?
2 Look at the text again. Write questions like the one in the example for the answers below.

1. Who **did** **he** smile **at**? Her.
2. What **_________** talk **_________**? Lots of things.
5. Where **_________** get **_________**? In Toulouse.
6. Who **_________** belong **_________**? She didn't know.
7. Which **_________** write **_________**? The one in the front of the book.

**T10.6** Listen and check your answers.

If a preposition is at the end of a question, the pronunciation is strong.

3 Listen again. Repeat the questions, paying attention to the strong form prepositions.

**Connected speech**

**Contractions**

We use contractions in conversation but not formal speeches. We write contractions in letters to friends but not in business letters.

Here are some rules for writing contractions.

1. We do not write contractions in short affirmative answers.

   **Example**
   A. Is she Spanish?
   B. Yes, she is. (not Yes, she's.)

2. The only contraction we usually write with nouns (and names) is 's.

   **Example**
   Pablo's arrived.
   The children have arrived. (not The children've arrived.)

3. The only contraction we usually write with non-personal pronouns (What, Where, How, Who, When, Here, There, That, etc.) is 's.

   **Example**
   Where's the toilet?
   Where have you been? (not Where've you been?)

4. We do not write 's contractions with Wh- questions ending in the word it.

   **Example**
   What is it? (not What's it?)

5. The contracted form of Am I not? is Aren't I?

   **Example**
   Aren't I going with you?

**T10.7** Listen to how the contractions are pronounced. Listen again and repeat the sentences.

If a preposition is at the end of a question, the pronunciation is strong.

1. Rewrite these sentences with contractions where you can. (There are four where you can't use contractions, and one with a strange contraction!)

   1. You should not eat fatty foods.
      **You shouldn't eat fatty foods.**

   2. She cannot speak Italian very well.

   3. A You have not read it, have you?
      A
      B Yes, I have.
      B

   4. There is a bus stop opposite the library.

   5. Sean would like to be an astronaut.

   6. I am right, am I not?

   7. It will be the biggest city on earth.

   8. What are your names?

   9. Who is it?

   10. I did not use to watch much TV as a child.

   **T10.7** Listen to how the contractions are pronounced. Listen again and repeat the sentences.

Word linking

• **T11.6** When a word begins with a vowel sound, the consonant sound at the end of the word before links on to it. (See Unit 1)

Kellogg's Corn Flakes were invented in eighteen ninety-four.

Nike trainers are sold all over the world.

• **T11.7** There is no linking between words when there is a pause – marked by a comma or full stop.

Ball-point pens or 'biros', were invented by László Biro, a Hungarian journalist in nineteen thirty-eight.

1 **T11.8** Look at the text. Listen and mark the word linking.

Most people’s picture of a typical Englishman is a man in a suit, with an umbrella, a copy of The Times, and a bowler hat. Not everyone knows, however, that this hard, low, round-brimmed hat was invented in the nineteenth century, or that it was named after a pair of British hat makers, Thomas and William Bowler.

The first example of a bowler hat was ordered by a country gentleman, Thomas Coke, who lived in Norfolk. He wanted a strong and practical hat that he could wear when he went out shooting.

In America the bowler hat is known as a derby.

2 **T11.9** Listen and practise the first linked phrase, starting from the end, like this:

suit
n_a_suit
n_in_a_suit
man_in_a_suit, etc.

3 Now practise some of the other linked phrases in the passage in the same way, starting from the end each time.

4 When you are ready, try reading the whole passage aloud, paying attention to the word linking.

**BANK ROBBERY IN CRICKLEWOOD**

A cleaning woman, Mrs Ethel Boggis, ✓ shot in a bank robbery in Cricklewood yesterday evening. She said to be safe and comfortable in hospital. The bank broken into by two masked men. They have not yet found. A total of £1 million stolen in the robbery, and a bag of jewels also taken. The jewels kept in a bank safe by Lady Agatha Crickle who told the bad news last night by the bank manager.

‘Most of my jewels made of gold,’ she told reporters. ‘My favourite ring made in China three hundred years ago. I can’t possibly buy another one.’

A red Ford Ka seen near the bank and later found in a car park at Heathrow Airport. A reward is offered by the police for any information about the crime.

3 Practise the sounds.

- To make the sound /e/, open your mouth a little and smile. /e/ is a short sound.
- To make the sound /ɛ:/, first write the symbols /e/ and /ɪ/ on separate cards. Hold up the /e/ card in your left hand. Turn your head left and say /e/. Make it short. Open your mouth a little more. Turn your head right and say /ɪ/. Make it short.

TL2.2 Hold up both cards. Turn your head quickly from side to side. Say /e/ when you turn left and /ɪ/ when you turn right. Keep the sounds short. Repeat this three times.

- In Box S the vowel sound of the underlined letters is /e/. It is a single vowel.
- In Box D the vowel sound of the underlined letters is /ɛ:/ It is a 'double vowel sound', or diphthong, made of the sound /e/ followed by the sound /ɪ/.

TL2.3 Now turn your head left and say /e/. Make it long. Turn your head slowly right and change the /e/ sound to /ɪ/. Repeat this three times.
Now say /ɛ:/ at normal speed. Remember that a diphthong is a bit longer than a single vowel sound. (Make the /e/ long and keep the /ɪ/ short!)
4 **T12.4** You will hear six questions. Tick (✓) the correct response for each question you hear.

1. Are you going to sell / sail that boat?

1 Circle the words in the box below which contain the sound /h/.

somewhere what hospital hours

T13.1 Listen and check your answers. You will only hear the words with the sound /h/.

To make the sound /h/, open your mouth and push air out. /h/ is a soft sound. (Don’t make it hard or use your voice.)

2 Listen to the /h/ words from 1. Practise saying them.

3 T13.2 Listen to some students saying these sentences. Circle the /h/ sounds which they don’t pronounce correctly.

Example

not → Have /h/ I helped?
but → Have _I helped?

Intonation and sentence stress

Corrective stress

Listen. We often stress words strongly when we correct people.

Look at these dialogues. Listen and mark the main stress in each B reply.

1 A So, the address is Mr P Blake, 46 Shakespeare Close, London SW3?
   B No, it's Mr P Blake, 46 Shakespeare Road, London SW3.

2 A So, the address is Mr P Blake, 46 Milton Road, London SW3?

Listen again and repeat the answers. Read the dialogues aloud with a partner. Pay attention to the stress.
3 Brian gets a lot of wrong number phone calls. Look at Brian’s answers below. The stress is in a different place each time. Can you write a question for each answer?

1. Hello. Is that 659 2590?
   No, it's 659 0590.

2. __________________________?
   No, it's 659 0590.

T14.3 Listen and check your answers.

52 Unit 14
• To make the sound /ɒ/, your open your mouth and make your lips round. /ɒ/ is a short sound.

• To make the sound /ɑ:/, you push your lips forward and make them rounder. /ɑ:/ is a long sound.

• The sound /ɑʊ/ has two sounds, /ɑ/ and /ʊ/. First say /ɑ/. Make it long. Now add /ʊ/. Your lips should close a little as you make this sound.

5 Read the words in 3 with the recording.

6 With a partner you are going to play the game ‘Space Battle’. In this game you try to find and hit your partner’s spaceships.

These are the spaceships:

- flying saucer (= 5 points)
- rocket (= 20 points)
- space station (= 50 points)

Don’t let your partner see your grid. On the grid marked You, put crosses where your spaceships are. You can put your rockets and your space station horizontally (→) or vertically (↓).

You each have:
4 flying saucers 2 rockets 1 space station

When you have put all your spaceships in your grid, you are ready to play the game. (Don’t put anything in the grid marked Your partner yet.)

Student A Student B will say the name of a square on your grid. Shade the square like this ☐. If there is a X in the square, say HIT. If there is no X, say MISS. If the HIT is a flying saucer or the last remaining square of a bigger spaceship, say HIT AND DESTROYED. (The shaded squares show you the squares your partner has already called.)

Example

sport, coat HIT!

Student B On the grid marked Your partner, try to find Student A’s spaceships. Say the name of a square on the grid where you think there is a spaceship. If Student A says HIT, draw a X. If they say MISS, draw a O.

Now take it in turns to ask and answer. After ten minutes stop the game and see who has the most points. (You only get points for the spaceships you have destroyed.)

Unit 6

The sounds /n/ and /ŋ/ (and /ŋg/ and /ndʒ/)  

2 T6.2  

/n/: winter, friendly, modern, pond, children, newsagent, window, expensive  

/ŋ/: sink, junk, think, thanks, drink, ankle, bank, uncle  

3 The letter n is pronounced /ŋ/ when the following sound is /k/.  

5 T6.4  

/ŋ/ /ŋɡ/ /ndʒ/  

thing hungry danger  
singing stronger strange  
wedding English oranges  
young single changing  
darling bungalow exchanged  
wrong congratulations  
buildings king  

6 The letters ng at the end of a word are always pronounced /ŋ/.  

Note  
We say the adjectives long, strong, and young with a final /ŋ/. We say the comparative and superlative forms with /ŋɡ/ or /ŋɡɪst/.  

Apart from these exceptions, words with a final /ŋ/ do not change pronunciation when endings are added.  

Example  

ring /rɪŋ/ → ringing /rɪŋɡɪŋ/  
sing /sɪŋ/ → singer /sɪŋɡə/  
young /jʌŋ/ → youngish /jʌŋɡɪʃ/

Further notes on writing and pronunciation of contractions

1 We do not write or pronounce contractions in short affirmative answers. Short negative answers are written and pronounced with contractions (e.g. No, I haven't.).

2 We can write many different contractions with personal pronouns (e.g. she'd, he's, we're, it'll, they're, etc.). With nouns the only usual written contraction is 's (for has or is). In sentences like Sean would like to be an astronaut. The plane will land in half an hour, or The children have arrived, we pronounce the contractions, but we do not write them.

3 With non-personal pronouns the only usual written contraction is 's (for has or is). (Other possible written contractions with non-personal pronouns are what'll, that'll, who'll, and who'd.) In questions like What are your names? or Where have you been?, we pronounce the contractions, but we do not write them.

4 We do not write or pronounce contractions with short Wh-questions ending in the word it. With words like that or this at the end, contractions are possible (e.g. What's that? Where's that? Who's this?).

Word linking

1 T11.8
Most people's picture of a typical Englishman is a man in a suit, with an umbrella, a copy of The Times, and a bowler hat. Not everyone knows, however, that this hard, low, round-brimmed hat was invented in the nineteenth century, or that it was named after a pair of British hat makers, Thomas and William Bowler.

The first example of a bowler hat was ordered by a country gentleman, Thomas Coke, who lived in Norfolk. He wanted a strong and practical hat that he could wear when he went out shooting.

In America the bowler hat is known as a derby.

T11.10
A cleaning woman, Mrs Ethel Boggis, was shot in a bank robbery in Cricklewood yesterday evening. She is said to be safe and comfortable in hospital. The bank was broken into by two masked men. They have not yet been found. A total of £1 million was stolen in the robbery, and a bag of jewels was also taken. The jewels were kept in a bank safe by Lady Agatha Crickle who was told the bad news late last night by the bank manager.

'Most of my jewels were made of gold,' she told reporters. 'My favourite ring was made in China three hundred years ago. I can't possibly buy another one.'

A red Ford Ka was seen near the bank and was later found in a car park at Heathrow Airport. A reward is being offered by the police for any information about the crime.
