PUBLISHERS FEATURED
Each successive edition of this incomparable one-stop guide to preventing, controlling, and managing infectious diseases in children has set new standards of quality, authority, and value.

Like its distinguished predecessors, the 30th edition is custom-built for efficient patient problem solving. At its heart are expert recommendations on the clinical manifestations, etiology, epidemiology, diagnosis, and treatment of more than 200 different diseases.

Created by the AAP Committee on Infectious Diseases and reviewed by the CDC and FDA—with contributions from hundreds of expert physicians—it is the clinical tool you will consult often and with complete confidence. The new edition has been thoroughly revised and updated to help you stay in step with the latest developments and recommendations.

Red Book® 2015 product highlights:
- All chapters and sections have been updated.
- Key developments in combination vaccines.
- Important findings on drug interactions.

Content includes:
- Summary of Major Changes in the Red Book®
- Section 1: Active and Passive Immunization
- Section 2: Recommendations for Care of Children in Special Circumstances
- Section 3: Summaries of Infectious Diseases
- Section 4: Antimicrobial Agents and Related Therapy
- Section 5: Antimicrobial Prophylaxis

BERKOWITZ’S PEDIATRICS
A Primary Care Approach, Fifth Edition
Carol D. Berkowitz
2014 850pp
9781581108460 Paperback £89.95 / €99.00
This fifth edition is custom-built for efficient primary care problem-solving. It provides concise, practice-oriented guidance on all the most common issues – both clinical and psychosocial – you’re likely to encounter. Here’s hands-on help on topics ranging from temper tantrums and thumb-sucking to childhood cancer, kidney disease, and diabetes.

PEDIATRIC NUTRITION
Seventh Edition
Edited by Ronald E. Kleinman & Frank R. Greer
2013 1,477pp
9781581108163 Paperback £128.00 / €143.00
Prepared by the AAP Committee on Nutrition with contributions from more than 100 experienced practitioners, this seventh edition puts today’s most current nutrition-related information at your fingertips. It provides the latest information about nutrient metabolism and nutrition to support the normal development and health of infants and children who are well, those born with congenital anomalies or disorders of metabolism, and those with acute and chronic illnesses.
PEDIATRIC OTOLARYNGOLOGY
Edited by Scott R. Schoem & David H. Darrow
2012 450pp
9781581106046 Paperback £61.95 / €69.00
This ENT ready-reference has been created expressly for paediatric primary care providers. It will quickly become the first place to turn for expert help with the myriad of ear, nose, and throat disorders seen every day. It explains how to evaluate ear, nose, and throat disorders promptly, manage them effectively, and refer them appropriately for specialist intervention.

PEDIATRIC PULMONOLOGY
Edited by Michael Light et al
2011 900pp
9781581104929 Paperback £102.00 / €114.00
Provides the latest AAP findings and recommendations; assessment and testing how-tos; proven therapeutic strategies; procedures, and techniques; home care and monitoring considerations; and much more. Powerful problem-solving features in each information-rich chapter include illustrative case reports, key point summaries; and definitions of pulmonary-specific terms.

RED BOOK® ATLAS OF PEDIATRIC INFECTIOUS DISEASES

2016 784pp, 1,200 photos & radiographs
9781610020602 Hardback £99.95 / €120.00
Provides must know information for diagnosing, evaluating, and treating more than 100 paediatric conditions. The content is a concise distillation of Red Book® 2015. Key features include 800 detailed clinical photos and radiographs. Succinct captions note crucial aspects of patient presentation and disease processes, and offer valuable insights for differential diagnosis.

KEY BESTSELLER
TEXTBOOK OF NEONATAL RESUSCITATION
Seventh Edition
American Academy of Pediatrics & American Heart Association
2016 328pp, 140 illustrations
9781610020244 Paperback £59.95 / €65.00
The Neonatal Resuscitation Program (NRP) is an educational programme designed to teach an evidence-based approach to resuscitation of the newborn to hospital staff who care for newborns at the time of delivery. Significantly revised and updated, the new seventh edition reflects the revised guidelines for neonatal resuscitation and emergency cardiovascular care.

PMPH-USA

MANUAL OF NEONATAL SURGICAL INTENSIVE CARE
Third Edition
Anne R. Hansen & Mark Puder
2016 650pp, 54 images, 26 figures, 28 tables
9781607951940 Paperback £61.95 / €70.00
The perioperative management of newborns with surgical conditions is an interdisciplinary effort. These infants generally spend less than a day in the operating room, but require days, weeks, or even months of complex pre- and postoperative care. The Manual of Neonatal Surgical Intensive Care will be useful to both medical and surgical clinicians who are taking care of newborn infants with surgical conditions.

Springer Publishing Company

COMPREHENSIVE NEONATAL NURSING CARE
Fifth Edition
Edited by Carole Kenner & Judy Wright Lott
2013 1064pp, 80 line drawings & graphic figures, 40 photos
9780826109750 Hardback £133.00 / €149.00
The only text to combine comprehensive physiology of the neonate with nursing management, this has been used worldwide for education, orientation, and training since its original publication in 1993. Thoroughly updated, this new edition incorporates the most up-to-date research findings and strategies for providing cost-effective and evidence-based care. Completely new chapters address emerging infections, the late preterm infant, and neonatal care from a global perspective.

MEDICATIONS & MOTHERS’ MILK 2017
Thomas W. Hale & Hilary E. Rowe
2016 1095pp
9780826128584 Paperback £57.95 / €68.00
The worldwide bestselling drug reference on the use of medications in breastfeeding mothers, providing the most current, complete, and evidence-based information. This 17th edition features a massive update with hundreds of new drugs, diseases, vaccines, and syndromes. It also provides numerous changes to hundreds of existing drugs.
