How to play

Basically it’s like the shopping list game but this time the vocabulary that you work with is related to the house.

Each player takes a track and a list. The cards are spread out face-down on the table.

Players turn over the cards in turn. If on their list the card goes into their track, otherwise it is replaced face-down on the table.

The game continues until one player has made the move with all the things on his list.
Don't FORGET!
