1500
STRUCTURED TESTS
level 2

Editorial Stanley
This book presents and tests thirty essential grammatical structures.

**How to use the book:**

Teachers may use the book in class as a complement to other teaching materials either to check how well specific structures have been assimilated or as the basis of a short and stimulating group activity.

Thus, one way to use it might be to have a student read a question, choosing the answer he considers correct; then to have the other members of the class, working individually or in teams, challenge or confirm the answer, with the teacher acting as referee and score-keeper. Answers to the tests, at all levels, can be found in a separately published Answer Key Book.
The subjunctive / Structures with 'wish' ........................................ 1 – 2
